Chapter 10	Trading Daily / Weekly Timeframes
Chapter 11	Books and Recommendations
Chapter 12	Want to work with us?
Chapter 14	About the Authors

Disclaimer

By receiving the FX PowerScanner you explicitly agree to all of the following:-

DISCLOSURE; the authors of this Indicator together with FXCorrelator Ltd, its managers , employees and affiliates (collectively “the Company”) **do not** make any guarantee or warranty about what returns the reader can expect from their future investments and trading returns.

The Company is not affiliated with, nor does it receive compensation from, any specific security.

The Company is not registered or licensed by any governing body in any jurisdiction to give investing or trading advice or provide investment or trading recommendations.

ALWAYS DO YOUR OWN RESEARCH and consult with a licensed investment professional before making an investment or trade. This book and associated online and electronic material should not be used as a basis for making any investment or trade.

Indemnification / Release of Liability

By reading this communication, you agree to the terms of this disclaimer, including, but not limited to: releasing the Company, its affiliates, and successors from any and all liability, damages, and injury from the information contained in this book, Indicator and associated online and electronic material.

You further warrant that you are solely responsible for any financial outcome that may come from your investment and trading decisions.

Forward-looking statement. As defined in the United States Securities Act of 1933 Section 27(a), as amended in the Securities exchange Act of 1934 Section 21(e), statements in this communication which are not purely historical are forward-looking statements and include statements regarding beliefs, plans, intent, predictions, or other statements of future tense. Past Performance is **not** indicative of Future Results.

Investing and trading are inherently risky. While potential for reward exists, by investing or trading, you are putting yourself at risk. You must be aware of the risks and be willing to accept them in order to invest in any type of security.

Do not trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell securities. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed in the book and in associated online and electronic material.

The past performance of any trading system or methodology is not necessarily indicative of future results.

CFTC RULE 4.41 – HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO,

SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN

All trades, patterns, charts, systems etc., discussed in this book, Indicator and associated online and electronic material are for illustrative purposes only and not to be construed as specific advisory recommendations.

All ideas, opinions, and the material presented are entirely those of the author and do not necessarily reflect those of the publisher or publishers.

No system or methodology has ever been developed that can guarantee profits or ensure freedom from losses. No representation or implication is being made that using the methodology or systems in this publication or associated online and electronic material will generate profits or ensure freedom from losses.

NOTE - All of my own trading requires the use of **the Metatrader4 (MT4)** platform to accommodate my indicators. I have not translated my indicators into any other languages so they will not be useable unless the broker offers MT4.

Introduction

Thank you for buying this Indicator

When Russia invaded the Ukraine on the 24th February 2022, I (alongside billions of others on this planet) watched in absolute horror and dread as to what would unfold.

I wanted to do something to help, so I published an ebook on forex trading (links and information to this are further down in this Introduction).

Following a lot of positive feedback and comments on that publication - I was also made aware that a lot of traders were asking if I had something **FASTER** and **SIMPLER** to help identify the most powerful pairs to trend trade – instead of using my more manual strengthmeters like the FIX START indicator and the original FXCorrelator.

And the Answer is **YES!** – Of course I have developed such things over the last few years - but they were all still locked into proprietary contracts with other clients – until now!

In collaboration with my most talented and prolific trading programmer **John Skinner** we pulled together a special version of **the FX PowerScanner** - and are now able to offer it to the general trading public in return for a small donation to charity.

The **FX PowerScanner** indicator is designed to work **INDEPENDENTLY** of everything else I have published to date - and can be applied to any **TREND FOLLOWING TRADING SYSTEM** if applied correctly and diligently.

Full instructions for using the **FX PowerScanner** to identify suitable pairs are contained in this eBook alongside some of the more popular suggested entry strategies for trend following systems – but please note this eBook **does not** cover my own recommended personal entry / exit strategy that is **ONLY** contained in my original eBook. (Sorry - You will have to buy it!)

If you already have a strong and robust entry / exit system – this Indicator is the **PERFECT PARTNER** to set you up on the **RIGHT PAIRS** at the **RIGHT TIME**

Every penny of your donation has gone directly to Ukrainian Charities – and if you copied it somehow for free or someone charged you for it – please could you donate generously anyway - as it's the right thing to do.

This Indicator will be useful for all levels of traders - From complete beginners to those more experienced, there's a way it will be useful in providing guidance for the **optimum forex pairs to trade**. I would still advise complete beginners to go to one of the excellent forex basic training sites out there (in this link)

<https://www.fxcorrelator.com/freeforextraining>

And then keep Googling anything you don't understand!

I could easily write a much bigger eBook on how to use this Indicator - there is so much to learn and explore within – but I've done my best to keep it short and sharp in communicating the most simple and effective trading strategies. **No fuss – no frills trading.**

I hope you find this Indicator and eBook interesting and useful - please feedback to me at Fxcorrelator@gmail.com with any questions, queries or suggestions for improvements – myself and John are happy to help.

FOREX TRADING MY WAY

This eBook was published in early March 2022 and has 100 pages packed full of how I actually trade the markets on a daily basis. The link is here

<https://www.fxcorrelator.com/copy-of-fixstart>

I would strongly recommend you make the small charity donation to get this additional information and the many indicators that accompany it. It is packed with details on how I view and trade the markets – which is very different to most other forex traders at times.

The FX PowerScanner indicator you have just purchased works terrifically well in combination with the entry strategies in this original eBook - and will save you valuable time in identifying pairs suitable for trading.

NOTE - All of my own trading requires the use of **the Metatrader4 (MT4)** platform to accommodate my indicators. I have not translated my indicators into any other languages so they will not be useable unless the broker offers MT4.

Many thanks and safe trading!

Neil (NVP) and John - April 2022

#14 – About the Authors

John Skinner

I have worked as an Analyst Programmer for the past 35 years, coding predominately in Visual Basic, C++ and C#.

In 2001 when the first version of .NET arrived I started programming in C# for testing purposes, however, within a short space of time I was able to see the potential of this new language and from then onwards most of my coding was done in C#.

From a forex and trading point of view I have been coding for the MT4 platform for 13 years and MT5 for 10 years. During this time I have coded many DLL's in C++, also Expert Advisors and Indicators in both MQL 4 and 5.

As you have probably guessed, my trading style is technical and because I am one of the large percentage of traders who find it too easy to break their own trading rules I use EA's to do the trading for me.

I am always happy to help fellow traders with their programming challenges in MT4 and MT5 so contact me at FXCorrelator@gmail.com

Neil Prior (NVP)

I am a Business Consultant, Qualified Accountant (FCCA) and Professional Forex Trader with extensive Finance Business Partnering (FBP), Commercial and Marketing experience across a variety of Industries and Blue Chip Private/Public Sector organisations.

My Forex business incorporates Trading and Training using software and strategies I have developed personally over the last 22 years (FXcorrelator.com) with my content attracting millions of views in major Global forums (such as Trade2win.com and ForexFactory.com). My Free Forex indicators have now been supporting thousands of Traders around the Globe since 2009.

My Father and Grandfather were Bookmakers and I grew up in the Gambling Industry - Speculation, Risk and Money Management featured strongly in my childhood years.

I became a very successful Gambler in my early teens under the guidance of my family and developed my own profitable horseracing systems; my first "proper" job was supporting the Oil and Products Trading teams at Shell International for 12 years and I retained my interest and passion for Trading Equities and Commodities through the 80's and 90's - starting my forex currency trading business back in 2001.

I am a firm believer in creating multiple income streams and alongside my other Consultancy work I continue to expand my Trading and mentoring business in the fascinating and challenging forex industry I know so well.

Please go to my website FXCorrelator.com for more information and to download my free software and indicators that have been used successfully by thousands of traders in the last 13 years.

Please feel free to visit my FXCORRELATOR YouTube channel - I am also a regular

contributor to many forex forums and at Trade2win.com I now have the largest and most successful forex thread ever followed, registering over **3 million views** from thousands of traders in the last 13 years.

Please contact me to discuss any Trading / Training and mentoring needs you may haveif I cannot help you personally I will know somebody who can!
